KOŃSKOWOLA												
The Finding of the Holy Cross and St. Andrew's the Apostle Parish Church	The finding of the Holy Cross and St. Andrew's parish church in Końskowola was founded in mid 16th century by Andrzej Tęczyński, the voivode (province governor) of Lublin and the castellan of Krakow. However, it is in fact older: the first wooden Finding of the Holy Cross's church was founded in late 14 th century. The brick chancel was built in 1442 and it was founded by Jan Koniński. The church was rebuilt in ca. 1670 on commission of the Great Crown Marshall Stanisław Herakliusz Lubomirski. The rebuilding works were led by Tylman of Gameren and gave the church the mass of a three-aisle basilica. Another rebuilding, initiated by Elżbieta Sieniawska and led in the first half of 18 th century, continued by August Czartoryski and his wife Zofia, neé Sieniawska, gave the temple its present shape. <p>The Town Hall and the Market Square</p>	<p>The Town Hall is in the Market square of Końskowola. It was founded in 1775 by Aleksander August Duke Czartoryski and built in early classicist style. It is the main lay building, forming the urban spatial arrangement of Końskowola. Its artistic values prove that it was designed by some of professional builders employed in the Duke's court. Thanks to the studies conducted by Dr Adam Soćko we know that the present presbytery – which was assumed to have been founded between 1613 and 1630 - is in fact a nearly century older manor of the Tęczyński family.
